FQ4 2023/24	8.0 weeks	20.0 weeks	Red	

This indicator for FQ4 has not met the target and performance has decreased since the last reporting period (lower is best).

FQ4 Comment

This measure only relates to planning applications received for alterations to existing premises.

Performance across the Development Management Service continues to be impacted as it works through a backlog of casework that has accumulated through the Covid pandemic and which has been exacerbated by extended periods of operating with reduced staffing levels due to issues with recruitment to vacant posts, and the introduction of National Planning Framework 4. Improving resource availability has allowed the focus of the DM Service to shift from the prioritisation of the most significant applications to addressing the accrued backlog of older applications. The determination of a higher-than-normal volume of older cases has a significant impact on "average time taken" performance measures as a relatively small number of older cases can skew the outcome. It is also noted that these performance measures are based on "raw data" and as such have not been adjusted to take into account delays to determination out with the control of the planning authority. FQ4 has seen the determination of 2 'legacy' applications and continued high volume of newer case work. The determination of an increasing proportion of older casework items during FQ4 has impacted negatively on overall performance from FQ3. 72% of applications de e o e o e

Corporate Outcome No.5 – Our economy is diverse and thriving

COI – Number of new homeless applicants who required temporary accommodation this period

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Corporate Outcome No.6 –

Renewi (formerly Shanks) – Percentage of waste recycled, composted and recovered

Performance is presented by Council-wide service provision.

FQ4 Comment

41.5% recycling, composting and recovery. Higher than normal mainly due to over 100 tonnes of wood being sent for recycling during the quarter from the Gartbreck (Islay) waste and recycling site. F/Year to date figures overall are 37.6% recycling, composting and recovery (37.6% recycling/composting and 0% recovery).

COI – The number of tonnes of waste sent to landfill

This indicator is a Corporate Outcome Indicator that is reported quarterly. The performance presented is Council-wide only.

Reporting Period	Target	Actual	Status	Trend of 'Actual' over the period
FQ4 2022/23	5,000	4,610	Green	
FQ1 2023/24	5,850	5,075	Green	
FQ2 2023/24	5,550	5,510	Green	
FQ3 2023/24	5,100	4,253	Green	
FQ4 2023/24	5,000	2,567	Green	

This indicator for FQ4 is below target (lowest is best).

FQ4 Comment

Barr Environmental (contractor for Helensburgh and Lomond's general waste) closed their landfill operations from 1st January and their waste operations as at 31st March. Barr sent all general waste received during the quarter to an energy from waste plant which has greatly reduced landfill during the quarter. Renewi also sent some general waste to an energy from waste plant as part of a trial during January 24. These actions have significantly reduced landfill during the quarter and therefore the tonnage of municipal biodegradable waste to landfill was well within target.

FQ4 Comment

Work days lost per FTE is around the same as the same quarter last year - just a very small increase of 0.08 work days lost. There has been an increase of 0.39 work days on the last quarter this year. Most days lost are due to Stress/Depression/Mental Health followed by Infections. Actions to address Stress/Depression/Mental Health absences are included in the Wellbeing Implementation Plan including a new Employee Assistance Programme, exploring a Stress Audit and support for managers. It is unusual for infections to feature in the top 3 reasons for work days lost and further analysis of the reasons for this and benchmarking will be carried out.
